FINE BATHROOM INTERIORS

BATHROOM ACCESSORIES AND FURNITURE 2024

Your way. The Miller Way.

Given how much time your family spends in the bathroom you deserve something extra. As a timeless and beautiful design, just like your family, it becomes more beautiful with age.

Added care is given to the selected materials and finish, along with all the little details that make the products so beautiful. And not least, the choice that will give you the bathroom you really desire.

We believe that it is important your whole family enjoys dealing with us, as we ourselves are a family business that for five generations has delivered quality, authenticity and tradition.

We believe that your family deserves a good quality of life, even in the bathroom. We call it the Miller Way.

Tradition

In 1903, two brothers, Justus and Fritz Miller started casting furniture fittings in little Printzeryd in Sweden. They were skilled craftsmen who took great care with the fittings they supplied to make sure that they were of the highest quality. Today, over 100 years later, that same philosophy stands and with the business still under the Miller's ownership, and the family remains fully committed to the production of high quality, visually stunning products which stand the test of time.

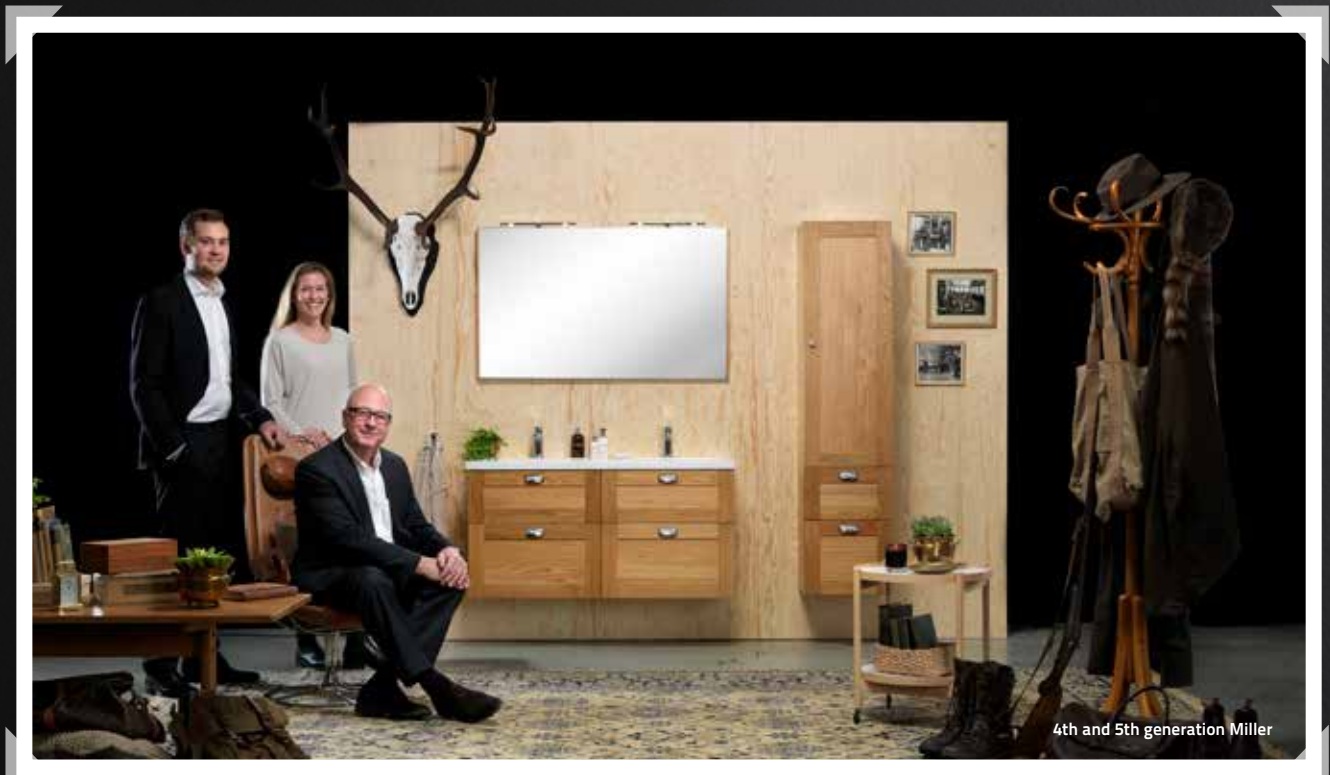

‘Beneath the surface there are all those little details that become more important over the years’

We know the surface is important in bathrooms. That’s the first thing your eyes see when you enter the room. A beautiful wall cabinet, the clean lines of a vanity unit, an elegantly shaped porcelain sink creates that special first impression. But it’s once you get to know your bathroom a little closer you will appreciate our attention to detail. Beneath the surface there are all those little details that become more important over the years.

We select wood with beautiful veining and finish with hard wearing, protective lacquer. We are careful to design drawers and doors which always open and close smoothly. We have thought about the extra storage that will be practical and functional. Everything we design is for a long lasting friendship. This is when the small details combine with the beautiful surfaces to give you a special bathroom – the Miller Way.

4th and 5th generation Miller

Bathroom Accessories

The perfect way to finish your bathroom is with the addition of one of Miller from Sweden's beautiful accessory collections. Thoughtfully designed to complement our furniture, there are many stylish and innovative solutions to choose from.

A good morning. And an equally good night.

The morning is full of anticipation. At night it is filled by a relaxing calm. The bathroom has an important role for all - for both the large and the small family. Therefore it is important that the bathroom spreads that extra feeling of comfort that makes us feel good.

But we are all unique, with different tastes and needs and desire a bathroom that is adapted to our own personality. Freedom of choice from our wide range of bathroom furniture and accessories gives you the chance to realise your own dreams.

**New colours: Cotton Cream
and Coffee Cream**

City 80

Available in 8 on-trend colours- we invite you to choose yours, built to last a lifetime. A silky smooth feel combined with a resistant matt surface make the furniture a more interesting and sustainable choice.

Kensington 96

Soft bevelled edges and beautifully framed fronts. Kensington combines classic elegant furniture with modern storage and basin possibilities. Modern beauty for a long lasting fine bathroom.

New Design for 2024

Classic 138

Back to beauty. The classic design creates a safe and warm feeling for your moments in the bathroom. Hand-worked details and rounded arches along the classic English washbasin provide a luxurious and romantic feel to everyday life.

FINE BATHROOM INTERIORS

Higher standard Guaranteed

It's difficult to explain the feeling, when something feels really good inside and out. We constantly work on improving the small details which ultimately makes our bathroom furniture better.

Details that might not always be visible but after years of use the feeling becomes obvious. Miller offers a guaranteed higher standard without adding extra. Room for feelings – the Miller Way.

Open and close to feel the quality. We use only the best rails and fittings with our furniture.

Edges and fronts of both drawers and doors are of 19 mm thickness. This gives a solid and longer lasting impression.

Mirror Cabinets and Mirrors in several sizes with efficient, elegant and dimmable LED lighting.

High drawers are equipped with a retaining bar that keeps tall bottles and for instance electric tooth brushes in place.

The hinges on the double sided mirror doors are fully adjustable in all directions and soft closing.

Genuine ceramic of highest quality. See page 142 for several options of full cover basins.

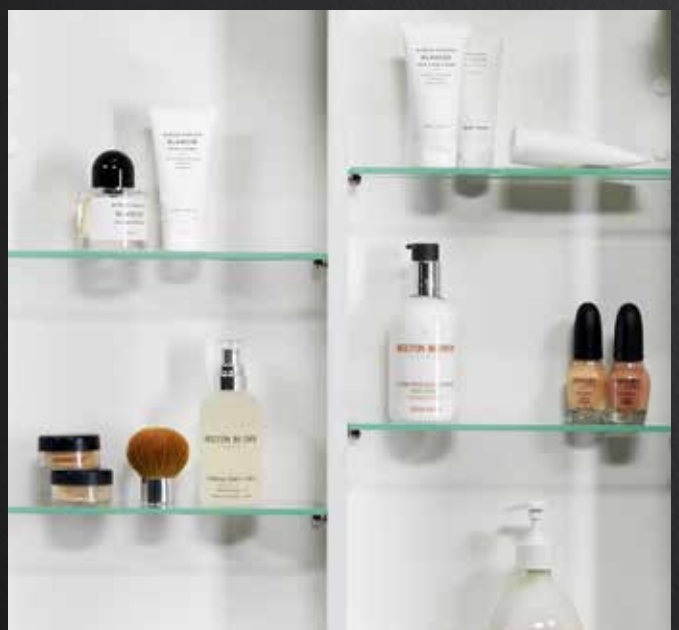

Conscious choices of material give you a sustainable product with the best finish.

Fully extendable, soft closing drawers. Dividers made from solid oak. Anti-slip mats and straight insides gives you optimal storage.

Plenty of options for optimal storage.

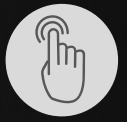

Centre divider in our bathroom cabinets gives stability and flexibility when it comes to the placement of the shelves.

A brighter future starts in your bathroom

Linear LED is energy saving yet very powerful. The vertical lights reduce shadow casting and gives you the perfect mirror reflection.

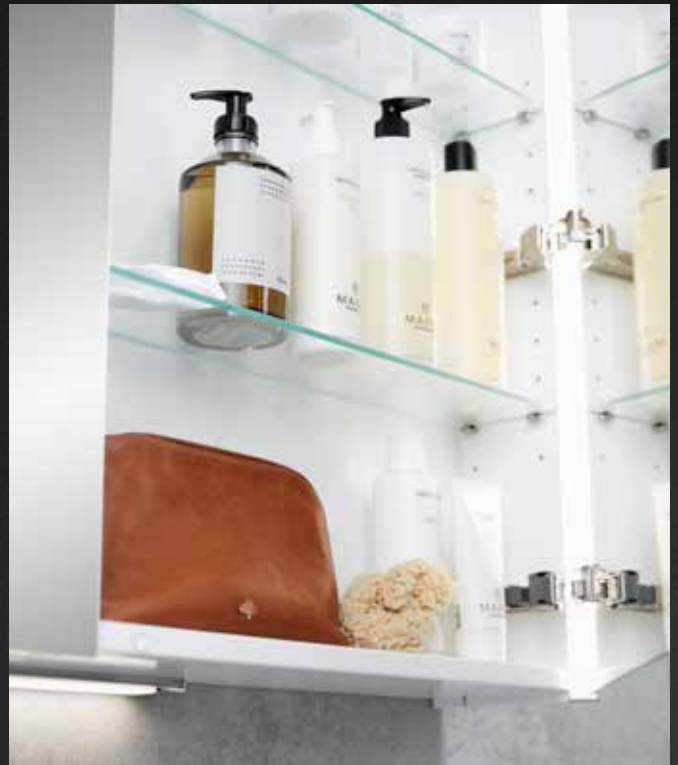

The built in touch sensor enables you to control the amount of light you want – and thanks to the built in memory the Linear LED remembers your preference until next time it's turned on.

Functional, practical and beautiful – the thin LED light bars shine both forward and inward on the cabinets, making sure you have a bright time in the bathroom.

Miller

Centre divider in our bathroom cabinets gives stability and flexibility when it comes to the placement of the shelves.

Technically powerful LED lighting creates bright lines with better colour reproduction. Perfect for makeup.

Down lighting is an option that provides an effective lighting over the basin.

The lighting is integrated into the cabinet sides and measures 16 mm x 16 mm.

Light shines both forward and inward on cabinets.

Control the brightness with a touch sensor. Linear LED remembers the last chosen setting/brightness when switched on and off.

Natural Stone Worktops

You can feel it with your fingers, and you see it with your eyes. A feeling of beauty that is sustainable for both the test of time - and your eyes desire. Choose your personal favourite from our Worktops.

Solid Worktops with a slightly bevelled edge gives a beautiful finger-tip feeling finish. Worktops can be selected to complement City, Kensington, London and New York.

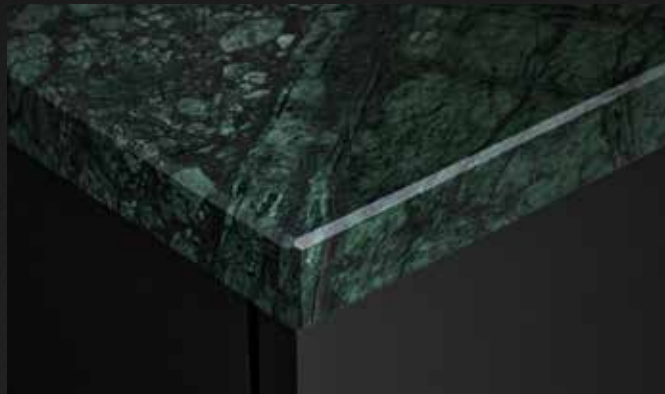

Variation in appearance

Our stone worktops are made of genuine stone, which means that colour and texture vary from rock to rock. It helps you to create a natural and personal charm in your new bathroom. To make a durable surface, all of our worktops are treated.

Black Diabase

Diabase, or “black granite” as it is sometimes mistakenly called, can be seen in the black streaks in the mountains around Sweden. It is a dense and hard rock that stands up to everything. The satin black surface gives the bathroom a feeling of both luxury and pleasure.

Green Marble

An alternative to the classic Carrara marble is our green marble which has recently become very popular. The deep green colour with its speckled surface creates a nice contrast to our white ceramic basins.

Limestone Jura

Limestone is a beautiful living material that fits well in the bathroom. Irregular fossil elements in a beautiful natural beige tone complements several of our bathroom furniture ranges

Grey Swedish Granite

Our beautiful grey Bohus granite comes from Bohuslän. For centuries, they have quarried the stone which is both durable and beautiful, because even if the granite is the most common rock type on earth, each stone is unique with its own grain and character.

Carrara Marble

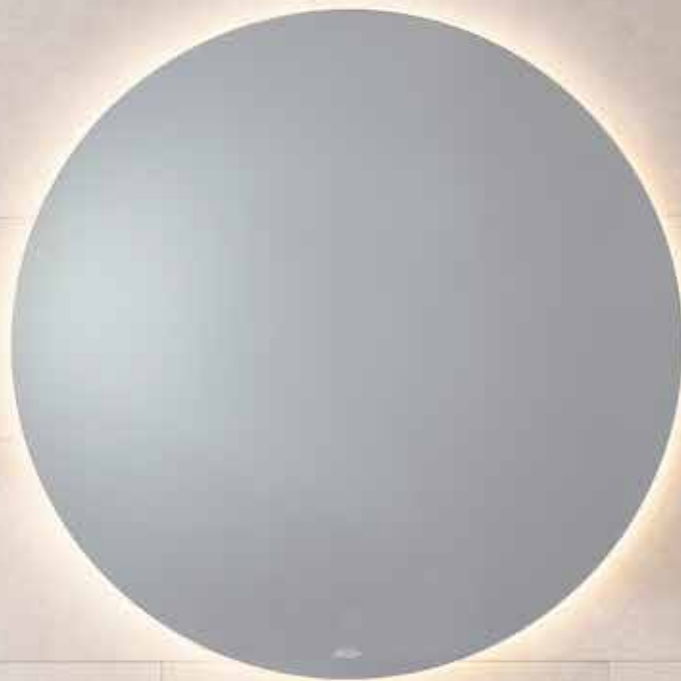

This classic marble from Italian Carrara has been a favourite among architects and sculptors since the Roman Empire’s glory days. Charm, feel, style and classic beauty – and much more durable now thanks to our stone work tops water resistance.

Classic Square

Classic Arch

CLASSIC CERAMIC

The series is crafted by hand in England, giving the products a higher density, meaning they are more impact resistant. The ceramic itself has a glossier, deeper and finer, almost glass-like surface.

Classic Arch basins have overflow holes in the shape of three lines. **Classic Square** basins have overflow holes in the shape of three small circles.
