

The UK's  
**No.1**  
for Taps &  
Showers

**NEW DESIGNS. NEW FINISHES.**

Introducing our latest taps, showers and accessories.

# PRODUCT BENEFITS EXPLAINED

## SAFE TOUCH

Designed to keep the exterior cool to the touch, ensuring you're never at risk of scalding.

## ECO START

The water starts cold, so you won't activate the boiler unless you turn the lever to hot, saving energy.

## PRECISE GLIDE

Features ceramic cartridges for long life durability and more precise control.

## SECURE FIX

Comes with metal fixings to secure your tap in place, so it won't move or rotate during use.

## EASY FIT INSTALLATION

Designed to make installation quicker and easier.

## MATCHING TAPS/SHOWER

Matching taps and showers are available.

## 1 OUTLET

One shower outlet.

## 2 OUTLETS, 1 ON

Two shower outlets, which only run separately.

## 2 OUTLETS, 2 ON

Two shower outlets, which can both run at once.

## 3 OUTLETS, 2 ON

Three shower outlets, two of which can run at the same time.

## DECOR SMART

Will use existing holes and fixings to fit in the same spot as your previous shower.

## LUMINANCE CHROME

A hard-wearing, flawless finish that lasts for years. It's also scratch resistant and salt spray tested to ensure added durability.

## FAMILY SAFE

Thermostatic temperature control and automatic stops prevent surges of hot or cold water.

## RUB CLEAN

There's no need to scrub. Limescale build-up can be easily wiped off the nozzles of this shower product.

## QUICK CHANGE

To change this product for something else, simply turn off the water supply and remove.

## ECO-FRIENDLY

This shower saves as much water as possible (but it doesn't feel like it).

## REJUVENATING

This shower uses a medium amount of water – just enough for a powerful, rejuvenating flow.

## DRENCHING

This shower fully soaks you with water for the most indulgent showering experience.

## ANTI-LIMESCALE

Reduces build up and helps extend product life.

# THE CHOICE

At Bristan, we work hard to make life easier for our customers. You can put your trust in every single Bristan product, time after time. For over 40 years, we've delivered exactly what we promise: reliable and long-lasting products, backed by incredible customer service. We make everything as painless as possible, with technical support always on hand.

Tried, tested, and delivered the next day. There's a Bristan product for every kitchen and bathroom, and a Bristan solution for every need. Our taps and showers are backed by reliable guarantees. That's why we're the UK's number one for taps and showers.

Straightforward solutions, great quality products, and incredible service.

# EASY DICE

# New Designs. New Finishes.

Introducing our latest taps, showers  
and accessories

Introducing Tangram, Saffron and Appeal;  
three new tap ranges in trend-led finishes,  
coordinating showers and matching  
accessories. Making Bristan the easy  
choice for bathroom refurb.

Saffron  
shower  
pack

see page 68

## Hourglass

**Shower**  
see page 56

Matching taps available see page 53

Find your Matching Accessories page 135

## Introducing Eco Start

Featured in basin mixers across our Tangram, Saffron, Appeal and Gild ranges, Eco Start saves energy by having cold water as the default central start position of the tap handle. Hot water is only activated when the tap lever is moved from the central position, so your boiler is not unnecessarily fired up.

# MARVELLOUS MIOS. MORE CHOICE IN OUR ESSENTIALS RANGE

## MIOS PEG LEVER BATHROOM TAP RANGE

1/4 TURN CERAMIC DISCS

METAL FIXING NUTS

SUITABLE FOR HIGH AND LOW PRESSURE SYSTEMS

- Twin ended to boost hot and cold water supplies
- Suitable for negative head installations without a gravity flow of water to start

CODE	PRICE
ST NHPUMP 20TN	£949.00

## choosing your shower booster pumps

The chart below supplies all the information required to allow you to select your Bristan Booster Pump. Pumps are rated in bar pressure, one bar pressure is equal to raising your cold water tank/cistern by 10 metres above its current position, so a 2.0 bar twin Bristan pump is the equivalent to raising your tank/cistern 20 metres above its current position. This will create a high pressure shower.

Pump Type	STPUMPI15TN	STPUMP20TN	STPUMP20SG	ST NHPUMP 20TN
Performance - Boost	Medium Boost	High Boost	High Boost	High Boost
Maximum Pressure / Flow Litres / Min	1.5 bar / 32 LPM	2.0 bar / 35 LPM	2.0 bar / 17 LPM	2.0 bar / 40 LPM
System Friendly - Peripheral Impeller	Twin	Twin	Single	Twin
Application - Single Shower / Mixer tap	•	•		
Application - Outlet Pump on Shower system or to boost individual Taps			•	
Fully Automatic Flow Switch Control	0.8 LPM sensitivity	0.8 LPM sensitivity	0.8 LPM sensitivity	0.8 LPM sensitivity
Motor - Powerful Induction Motor	385 Watts	420 Watts	215 Watts	430 Watts
Motor Rating @ 9 litres / minute	30 minutes (S3)	30 minutes (S3)	30 minutes (S3)	30 minutes (S3)
Power Supply - 230/1/50	•	•	•	•

UKCA Marked meets all current Standards	•	•	•	•
100% Factory tested	•	•	•	•
Low Noise	•	•	•	•

### Pump Selection

When selecting a pump, first check to see if the tap / shower to be pumped is designed for a low pressure or high pressure system. If designed for low pressure select our Medium Pressure 1.5 bar pump, however if it's designed for high pressure select our High Pressure 2.0 bar pump.

### Twin Pumps

Twin pumps are designed to be installed between the cold water tank / cistern and the hot water cylinder so that they boost the water supply into the shower or tap.

### Single Pumps

Single pumps can be used with a shower; the pump being installed to the mixer outlet, pumping the blended hot & cold water away from the shower valve and up to the shower head.

Single pumps can also be used to boost individual hot and cold tank fed water supplies to individual taps.

### Controls

Bristan pumps are fitted with flow switches; these automatically start the pump once the flow from the shower / tap to be pumped exceeds 0.8 litres per minute. If your system has not got this minimum flow, contact Bristan for advice prior to purchase.

### Pump Location

Bristan pumps are designed to be most effective pushing water, for this reason our preferred pump location is on the floor next to the hot water cylinder.

### Hot & Cold Water Storage

Ensure that your Hot water cylinder & Cold water tank / cistern have sufficient capacity to meet the pumped demand.

### Connections to the water supply

#### Cold Water Supply:

The pump must be supplied with a dedicated feed direct from the cold water storage tank / cistern.

#### Hot Water Supply:

The pump must be supplied with a dedicated feed direct from the hot water cylinder.

Connection using a Stuart Turner cylinder flange or factory fitted secondary tapping if fitting, or alternatively it can be the first draw off from the underside of the open-vent. Hot water should not exceed 65 degrees C entering the pump and must be free of air. Both hot and cold supply pipes should be fitted with full flow service valves to aid maintenance (not supplied)

Under no circumstances should the pump be connected either directly or indirectly to the cold water mains supply.

#### Electrical connection

The pump must be installed by a competent person to all relevant IEE Wiring Regulation (BS7671) and should be wired directly to a double pole fused spur, complying with BS 1363-4 and protected with a 5 Amp fuse.

Full fitting instructions are supplied with every Bristan Pump. These should be followed carefully.

Installed correctly your Bristan pump will give years of reliable service.

R 3/4 SL	£69.00

## OUTLET FLOW REGULATORS

Flow regulators can easily be retro fitted between a mixer body/shower valve **outlet** connection and the shower hose. However, please note for **TMV2 approved products fitted on a combi boiler heating system**, it is recommended that flow

regulators are fitted between the mixer body and **both shower valve inlet connections**. This will ensure the valves performance is maintained, especially during the winter months, when the incoming water temperature is lower.

## OUTLET FLOW REGULATORS

CODE	TYPE	PRICE
ECO SHW 04	4 litres per minute	£16.00 ** Grey
ECO SHW 05	5 litres per minute	£16.00 ** Yellow
ECO SHW 06	6 litres per minute	£16.00 ** Black
ECO SHW 07	7 litres per minute	£16.00 Green
ECO SHW 08	8 litres per minute	£16.00 White
ECO SHW 10	10 litres per minute	£16.00 Blue
ECO SHW 14	14 litres per minute	£16.00 Pink

\*\*Not suitable for use where products are fitted on a Combi system  
Please contact customer service on 0844 7016273 for details on inlet flow regulators.

## FLOW REGULATORS & AERATORS - TAPS

### FITTING A FLOW REGULATOR TO THE TAIL OF A TAP

**Step One**  
The flow regulator will fit into the inlet of the tap.

**Step Two**  
Carefully push the flow regulator into the inlet of the tap.

**Step Three**  
Connect the pipework to the tap in the usual way.

### FITTING AN AERATOR / SPRAY REGULATOR TO A TAP SPOUT

**Step One**  
Carefully remove the existing flow straightener.

**Step Two**  
Screw the new flow regulating aerator into place.

**Step Three**  
Carefully tighten into the tap using a suitable spanner.

TYPE	CODE	FLOW RATE REDUCED TO	PRICE	COLOUR
<b>Isolating Flow Limiter</b> A pair of tap isolators with 4 flow limiter options included.	ECO ISOL BAS	3/4/5/6 litre per minute	£69.00 *	
<b>Flow Regulators</b> Suitable for use with the majority of Bristan basin pillar taps, basin and sink mixers.	ECO TAP1	1 litre per minute	£6.00 *	Pink

# Choosing your Thermostatic Mixing Valve

Our range of thermostatic mixing valves includes a choice of options to meet the needs of your project.

Pipe valve size	Pressure (bar)								Valve type
	0.1	0.2	0.5	1	2	3	4	5	
Flow rate litres / min									
<b>15mm</b>	5	8.5	15	21.5	31				<b>MT503</b>
<b>22mm</b>	10	17	28	42	59	73	85	95	<b>MT753</b>
<b>22mm</b>	13	19	33	47	66	81	94	105	<b>TS4753ECP</b>
<b>28mm</b>	23	36	62	88	125	150	176	195	<b>TS6000ECP</b>

Choosing the right size mixing valve for your plumbing system requirements in three simple steps:

#### Step One

Calculate the pressure drop dependent on the flow rate through the fitting (e.g. with 7 litres per minute flow regulators)

- e.g. 7 litres per minute through a VR3000 showerhead = Pressure drop of... **A**
- 7 litres per minute through a MEFC timed flow control = Pressure drop of... **B**

#### Step Two

Multiply the number of outlets by the required flow rate through each showerhead  
e.g. 7 litres per showerhead x 6 outlets = 42 litres per minute

Refer to the table (below left). Locate the nearest flow rate value ensuring it is  $\geq$  than required. This gives the total pressure drop. **C**

#### Step Three

Add together **A + B + C** **D**

## 15mm Thermostatic Mixing Valve

- Automatic shutoff in the event of hot or cold water supply failure
- Check valves and serviceable filters as standard
- Operates at a maximum pressure differential of 10:1

CODE	TYPE	Min. Press.	PRICE
MT503CP	15mm Mixing Valve	0.1 bar	POA

## 15mm Thermostatic Mixing Valve with Isolation

- Isolation at mixing point facilitates easy servicing
- Automatic shutoff in the event of hot or cold water supply failure
- Check valves and serviceable filters as standard

CODE	TYPE	Min. Press.	PRICE
MT503CP-ISO	15mm Mixing Valve Isol	0.1 bar	POA

## 15mm Thermostatic Mixing Valve with Isolation Elbows

- Elbows allow the valve to be concealed behind a pedestal
- Isolation at mixing point facilitates easy servicing
- Automatic shutoff in the event of hot or cold water supply failure

CODE	TYPE	Min. Press.	PRICE
MT503CP-ISOELB	15mm Mixing Valve Isol	0.1 bar	POA

## 22mm TMV3 Thermostatic Mixing Valve

- High and low pressure bath fill applications
- Automatic shutoff in the event of hot or cold water supply failure
- Check valves and serviceable filters as standard

CODE	TYPE	Min. Press.	PRICE
MT753CP	22mm Mixing Valve	0.1 bar	POA

# THERMOSTATIC MIXING VALVE

Contract

## 22mm TMV3 Thermostatic Mixing Valve with Isolation

- Isolation at mixing point facilitates easy servicing
- High and low pressure bath fill applications
- Automatic shutoff in the event of hot or cold water supply failure

CODE	TYPE	Min. Press.	PRICE
MT753CP-ISO	22mm Mixing Valve Isol	0.1 bar	POA

## 28mm Thermostatic Mixing Valve

- Ideal for group applications at pressures as low as 0.1 bar
- Temperature control can be locked in position or allow adjustment
- Automatic shutoff in the event of hot or cold water supply failure

CODE	TYPE	Min. Press.	PRICE
TS6000ECP	28mm Mixing Valve	0.1 bar	POA

## 22mm Thermostatic Mixing Valve

- Ideal for group applications at pressures as low as 0.1 bar
- Temperature control can be locked in position or allow adjustment
- Automatic shutoff in the event of hot or cold water supply failure

CODE	TYPE	Min. Press.	PRICE
TS4753ECP	22mm Mixing Valve	0.1 bar	POA

## 15mm Thermostatic Exposed Mixing Valve no shutoff

- Ideal for either single point or limited group applications
- Single adjustable temperature control for user comfort
- Requires separate flow control

CODE	TYPE	Min. Press.	PRICE
TS1503ECP-2000-MK	15mm Mixing Valve	0.1 bar	POA

## OPAC Thermostatic Exposed Shower Valve with Chrome Lever

- Single sequential control for both temperature and flow
- High performance at low pressures
- Adjustable inlet elbows allow centres between 140mm - 160mm
- Integral Thermal Flushing for Infection Control
- Easy Isolation and Filter Removal

CODE	TYPE	Min. Press.	PRICE
OP TS3650 EL C	Exposed Shower Valve	0.2 bar	POA

## OPAC Thermostatic Top Outlet Shower Valve with Chrome Lever

- Single sequential control for both temperature and flow
- High performance at low pressures
- Adjustable inlet elbows allow centres between 140mm - 160mm
- Integral Thermal Flushing for Infection Control
- Easy Isolation and Filter Removal

CODE	TYPE	Min. Press.	PRICE
OP TS3650TO EL C	Top Outlet Shower Valve	0.2 bar	POA

## OPAC Thermostatic Concealed Shower Valve with Chrome Lever

- Single sequential control for both temperature and flow
- High performance at low pressures
- Integral Thermal Flushing for Infection Control
- Easy Isolation and Filter Removal

CODE	TYPE	Min. Press.	PRICE
OP TS3650 CL C	Concealed Shower Valve	0.2 bar	POA

## OPAC Thermostatic Exposed Shower Valve with Chrome Lever and Shroud

- Single sequential control for both temperature and flow
- ABS protective shroud ensures safe surface temperature
- Adjustable inlet elbows allow centres between 125mm - 132mm

CODE	TYPE	Min. Press.	PRICE
OP TS1503 SCL C	Exposed Shower Valve	0.2 bar	POA

# EXTENSION AND ISOLATION ELBOWS

Contract

## Medium Elbow Kit (138-145mm) for TS1503 and TS1875 Valves

- For use with STR TS1875 EDC C, STR TS1875 CDC C, OP TS1503 EH C & OP TS1503 EL C valves
- Allows conversions from 138 - 145mm centres
- Includes 2 x 7 L/min flow regulators

CODE	TYPE	PRICE
SKINLET-15CP	Medium Elbow Kit	POA

## Long Elbow Kit (148-158mm) for TS1503 and TS1875 Valves

- For use with OP TS1503 EH C, OP TS1503 EL C, STR TS1875 EDC C valves
- Allows conversions from 148 - 158mm centres
- Includes 1 x 7 L/min and 1 x 5 L/min flow regulators

CODE	TYPE	PRICE
SKINLET-7CP	Long Elbow Kit	POA

## Isolation Elbow (175mm) Pair

- For use with OP TS1503 EH C, OP TS1503 EL C valves
- Provides isolation at the valve for ease of servicing
- Includes 1 x 7 L/min and 1 x 5 L/min flow regulators

CODE	TYPE	PRICE
SKINLET-2CP	Isolation Elbows	POA

### OPAC Thermostatic Concealed Mini Valve with Chrome Handwheel

- Single sequential control for both temperature and flow
- Concealed shower with easy-access cover plate for servicing
- Integral isolator and easy clean filters

CODE	TYPE	Min. Press.	PRICE
<b>MINI2 TS1203 CH C</b>	Concealed Mini Valve	0.2 bar	<b>POA</b>

### OPAC Thermostatic Exposed Mini Valve with Chrome Lever

- Single sequential control for both temperature and flow
- Adjustable inlet centres mean you can use existing pipework with centres between 110mm - 155mm
- High performance even at 0.5 bar inlet pressure

CODE	TYPE	Min. Press.	PRICE
<b>MINI2 TS1203 EL C</b>	Exposed Mini Valve	0.1 bar	<b>POA</b>

### OPAC Thermostatic Concealed Mini Valve with Chrome Lever

- Single sequential control for both temperature and flow
- Concealed shower with easy-access cover plate for servicing
- Integral isolator and easy clean filters

CODE	TYPE	Min. Press.	PRICE
<b>MINI2 TS1203 CL C</b>	Concealed Mini Valve	0.2 bar	<b>POA</b>

### OPAC Thermostatic Exposed Mini Valve with Rigid Riser

- Single sequential control for both temperature and flow
- Supplied with rigid riser and fixed head
- Adjustable inlet centres mean you can use existing pipework with centres between 110mm - 155mm

CODE	TYPE	Min. Press.	PRICE
<b>MINI2 TS1203 RR C</b>	Exposed Mini Valve	0.1 bar	<b>POA</b>

# BAR SHOWERS

Contract

## OPAC Thermostatic Exposed Bar Shower Valve with Fast Fit Connections

- Cool Touch Shower valve body for ultimate user safety
- Easy installation with isolating wallmount 12 fixing kit
- Integral flushing mechanism for easy maintenance

**WALLMOUNT 12**  
The simplest solution for installing, maintaining and replacing bar showers.

CODE	TYPE	Min. Press.	PRICE
OP SHXVO ISOL EH C	Bar Shower Valve Only	0.2 bar	POA

## OPAC Thermostatic Exposed Bar Shower Valve with Chrome Levers and Fast Fit Connections

- Cool Touch Shower valve body for ultimate user safety
- Easy installation with isolating wallmount 12 fixing kit
- Integral flushing mechanism for easy maintenance

**WALLMOUNT 12**  
The simplest solution for installing, maintaining and replacing bar showers.

CODE	TYPE	Min. Press.	PRICE
OP SHXVO ISOL EL C	Bar Shower Valve Only	0.2 bar	POA

## Push Button Timed Flow Shower Panel

- Water saving push button operation with timed flow
- Vandal resistant shower head with adjustable spray angle
- Easy installation

CODE	TYPE	Min. Press.	PRICE
TFP4001	Push Button Timed Flow Shower Panel	1.0 bar	POA

## Timed Flow Shower Panel with VR Head

- Integral thermostatic valve reduces deadleg and risk of legionella
- Vandal resistant showerhead with adjustable spray trajectory
- Anti-Microbial coating to assist infection control

CODE	TYPE	Min. Press.	PRICE
TFP3001	Timed Flow Shower Panel with VR Head	0.5 bar	POA

# SHOWER PANELS

Contract

## Shower Panel with Kit

- Integral thermostatic valve reduces deadleg and risk of legionella
- Category 5 compliant flexible kit
- Anti-Microbial coating to assist infection control

CODE	TYPE	Min. Press.	PRICE
TFP3002	Shower Panel with Kit	0.5 bar	POA

## Fixed Temperature Timed Flow Shower Panel with VR Headset

- Integral thermostatic valve reduces deadleg and risk of legionella
- Water economy push button operation with timed flow
- Anti-Microbial coating to assist infection control

CODE	TYPE	Min. Press.	PRICE
TFP3003	Shower Panel with VR Head	0.5 bar	POA

**Timed Flow Temperature Adjustable Manual Shower Valve with VR Shower Head**

- Push button timed flow giving 30 secs (+/-5)
- Temperature control push button mechanism

CODE	TYPE	Min. Press.	PRICE
TFS 1 C	Manual Shower Valve	1.0 bar	POA

**Exposed Timed Flow Control Shower with Fixed Head**

- Supplied pre-plumbed and ready for connection to a pre-blended supply
- Water economy push button operation with 25 second constant flow (+5/-10 secs)
- Vandal resistant showerhead with adjustable spray trajectory and a choice of spray rings

CODE	TYPE	Min. Press.	PRICE
MEFC-PAK	Timed Flow Control Shower	0,1 bar	POA

# TIMED FLOW SHOWERS

Contract

## Exposed Timed Flow Control for Water Economy

- 25 second time delay (+5/-10 secs)
- Minimum working pressure 0.2 bar
- 15mm inlet and outlet connections

CODE	TYPE	Min. Press.	PRICE
TUF100ECP	Timed Flow Control Shower	0.2 bar	POA

## Concealed Timed Flow Control for Water Economy

- 25 second time delay (+5/-10 secs)
- Minimum working pressure 0.2 bar
- 15mm inlet and outlet connections

CODE	TYPE	Min. Press.	PRICE
TUF100CCP	Timed Flow Control Shower	0.2 bar	POA

### Vandal Resistant Adjustable Exposed Shower Head

- Curved design with tamper proof fixings and anti-rotation system
- Interchangeable spray rings and adjustable spray angle 25°-35°
- Top or bottom inlet

CODE	TYPE	PRICE
VR3000E	Shower Head	POA

### Vandal Resistant Adjustable Fast Fit Shower Head

- Robust construction for use with concealed pipework in high risk areas
- Anti-grip curved design with tamperproof fixings and anti-rotation system
- Interchangeable spray rings and adjustable spray angle 25°-35°

CODE	TYPE	PRICE
VR3000FF	Shower Head	POA

### Vandal Resistant Adjustable Fast Fit Duct Shower Head

- Robust construction for duct mounting in high risk areas
- Inlet tail can be cut to suit different cavity depths through wall thickness from 1 - 125mm
- Interchangeable spray rings and adjustable spray angle 25°-35°

CODE	TYPE	PRICE
VR3000FF DUCT	Shower Head	POA

# ACCESSORIES

## Contract

### Vandal Resistant Shower Head

- Suitable for exposed or concealed pipework
- Concealed fixings and security screw heads for tamper resistance
- Supplied with optional spray rings

### 180mm Concealed Shower Arm

- 180mm projection for use with concealed pipework
- 1/2" BSP inlet and outlet connections

CODE	TYPE	PRICE
<b>SA180CP</b>	Shower Arm	<b>POA</b>

### 87mm Exposed Shower Arm for Rigid Riser

- 87mm projection
- Backplate for wall fixing
- 15mm inlet connection

CODE	TYPE	PRICE
<b>9042-C</b>	Shower Arm	<b>POA</b>

### 250mm Exposed Shower Arm for Rigid Riser

- 250mm projection
- Backplate for wall fixing
- 15mm inlet connection

CODE	TYPE	PRICE
<b>SA260-C</b>	Exposed Shower Arm	<b>POA</b>

# ACCESSORIES

Contract

## Single Function Extended Slide Bar Shower Kit

- Extended 910mm slide rail
- Extended 1.75m hose
- Soap tray with integral closed loop hose retainer

CODE	TYPE	PRICE
EV KIT-EEFB C	Extended Shower Kit	POA

## Multi Function Extended Slide Bar Shower Kit

- Extended 910mm slide rail
- Extended 1.75m hose
- Soap tray with integral closed loop hose retainer

CODE	TYPE	PRICE
EV KIT-EEVK C	Extended Shower Kit	POA

## Grab Rail / Slide Rail Shower Kit - 900mm

- Tough, non corrosive 32mm diameter stainless steel Grab Rail/Slide Bar
- Easy to use, robust slider mechanism
- 190kg Max user weight

CODE	TYPE	PRICE
EV KIT-EGB C	Shower Kit	POA

## Economy Single Function Slide Bar Shower Kit

- Single function, rub-clean, anti-limescale handset
- 1.5m hose
- Soap tray with integral closed loop hose retainer

CODE	TYPE	PRICE
EV KIT-EFB C	Extended Shower Kit	POA

### Non-Thermostatic Healthcare Tap Short Lever Handle

- Pressure balancing basin mixer tap with short lever handle
- Removable spout to aid infection control regimes
- Smooth machined internal waterways to help limit the build-up of bacteria within the tap body

CODE	TYPE	Min. Press.	PRICE
SOLO-NM SL	Basin Mixer	0.5 bar	POA

### Non-Thermostatic Healthcare Tap with Long Lever Handle

- Pressure balancing basin mixer tap with long lever handle
- Removable spout to aid infection control regimes
- Smooth machined internal waterways to help limit the build-up of bacteria within the tap body

CODE	TYPE	Min. Press.	PRICE
SOLO-NM LL	Basin Mixer	0.5 bar	POA

### Non-Thermostatic Tall Pillar Healthcare Tap with Long Lever Handle

- Pressure balancing tall basin mixer tap with long lever handle
- Removable spout to aid infection control regimes
- Smooth machined internal waterways to help limit the build-up of bacteria within the tap body

CODE	TYPE	Min. Press.	PRICE
SOLO-NMT LL	Basin Mixer	0.5 bar	POA

### TMV3 Mono Basin Mixer with Short Lever Handle (no waste)

- Complies with HTM04-01
- Above basin access to serviceable parts, limiting down time
- Supplied with copper tails

CODE	TYPE	Min. Press.	PRICE
SOLO2-T3SL	Basin Mixer	0.2 bar	POA

### TMV3 Mono Basin Mixer with Long Lever Handle (no waste)

- Complies with HTM04-01
- Above basin access to serviceable parts, limiting down time
- Supplied with copper tails

CODE	TYPE	Min. Press.	PRICE
SOLO2-T3LL	Basin Mixer	0.2 bar	POA

# TAPS

## Contract

### Single Control Deck Mounted Basin Mixer

- Complies with HTM04-01
- Integral flush system assists against infection
- 1-step isolation and filter removal

CODE	TYPE	Min. Press.	PRICE
H64DMT2	Basin Mixer	0.2 bar	POA

### Single Control Wall Mounted Basin Mixer

- Complies with HTM04-01
- Integral flush system assists against infection
- 1-step isolation and filter removal

CODE	TYPE	Min. Press.	PRICE
H64WMT2	Basin Mixer	0.2 bar	POA

### Timed Flow Temperature Control Basin Mixer

- Timed shut off to meet BS EN 816
- Max temperature limiter (adjustable) for user safety
- Vandal resistant 'release to activate' mechanism

CODE	TYPE	Min. Press.	PRICE
Z TC 1/2 C	Basin Mixer	1.0 bar	POA

### Single Toggle Lever Basin Tap (with flow regulator)

- Approx. 15 second shut off
- Supplied with both hot and cold indices
- Supplied with 6 L/min flow regulator fitted

CODE	TYPE	Min. Press.	PRICE
Z L 1/2 C	Single Toggle Lever Basin Tap	0.2 bar	POA

**Single Tall Soft Touch Timed Flow Tap (with flow regulator)**

- Timed shut off to meet BS EN 816
- Soft touch easy to use mechanism
- Supplied with 5L/min flow regulator

CODE	TYPE	Min. Press.	PRICE
Z2 TBV 1/2 C	Timed Flow Tap	0.2 bar	POA

**Single Luxury Soft Touch Timed Flow Tap (with flow regulator)**

- Timed shut off to meet BS EN 816
- Soft touch easy to use mechanism
- Supplied with 5L/min flow regulator

CODE	TYPE	Min. Press.	PRICE
Z2 LUX 1/2 C	Timed Flow Tap	0.5 bar	POA

**Single Pillar Basin Soft Touch Timed Flow Tap (with flow regulator)**

- Timed shut off to meet BS EN 816
- Soft touch easy to use mechanism
- Supplied with 5L/min flow regulator
