The Ohtake collection was created by the late Brazilian architect and designer Ruy Ohtake, who throughout his life took inspiration from forms found in nature: the sea, the sky, and what he considered the purest form of design, the egg. His collection for Roca unites these elements in a set of functional yet playful basins in a variety of colour options.

With their flowing curves and wavelike forms, Ohtake basins are guaranteed to make a splash.

Ohtake

Ruy Ohtake

Born in Brazil, the son of Japanese-Brazilian Tomie Ohtake, one of Brazil's leading artists, Ohtake grew up in a highly cultured environment, exposed to the world of art and design. He studied Architecture in São Paulo, under João Vilanova Artigas, worked with Oscar Niemeyer, and then went on to establish his own practice, designing over 400 buildings throughout his long career, many of them in his hometown, the city of São Paulo.

Among his career highlights are the house/studio designed for his mother, in the early days of his office, and the half-circle shaped Hotel Unique, considered by many an icon of the Brazilian boom of the 2000's and his years long collaboration with the community of the Heliópolis favela.

A multi-faceted designer, Ohtake was also known for his product designs, bringing his originality and whimsical creations to one of furniture pieces, commercial collections, table-top items, and rugs creations.

An enthusiastic speaker, he was a well sought-after lecturer, travelling both domestically and abroad for speaking engagements. He was the recipient of many national and international awards and honors, including the "Best of the Best" Red Dot Design Award in 2019 for his design for Roca's Ruy Ohtake Collection. He passed away in November 2021, at the age of 83 and since then his office is led by his son, architect and designer Rodrigo Ohtake.
